

ENVIRONMENTAL POLICY

Mohammed Jalal Catering Policy is to recognize the Moral and Ethical responsibilities in protecting the Environment for this and future generations, and will endeavour to be a leader in such issues by focusing on:

- Operating at all times in all areas in an Environmentally friendly manner.
- Actively conserving natural resources and energy in MJC's operations, while maintaining optimum Client satisfaction, and without sacrificing operational requirements or Safety.
- Reducing waste, preventing pollution, and conducting activities in a manner so as to minimize Environmental impact.
- Complying with all legal, regulatory & other requirements. Understanding and meeting customer's requirements to the fullest.
- Efficiently managing and minimizing waste production.
- Utilizing products and materials which have the least negative impact on the environment, and which are beneficial wherever possible, both in their use and source of origin.
- Pursuing action programs benefiting the Environment in the local community.
- The above commitment shall be achieved by the effective implementation of the ISO 14001:2015 Environmental Management System and the setup of appropriate Objectives and Targets.
- Fostering the education of Environmental awareness both internally and externally.

Environmental Policy will be reviewed periodically for continued suitability.

This Policy & its requirement shall be communicated and made available to all its employees, clients, contractors, suppliers & partners to ensure it achieves its goals for Environmental preservation and benefit in a professional, effective & efficient manner.

All employees shall be aware of their responsibilities and comply with the Environmental Management System requirements in line of their duties.

Mr. Martin Drydale

General Manager
